Good Reads In Cybersecurity Canon

Palo Alto Networks has an excellent selection of recommended good reads in our Cybersecurity Canon Hall of Fame.

While people around the world are staying home because of the Coronavirus pandemic (COVID-19), we all have some extra time to fill. So why not take a break from your screen time and jump into some good reads about cybersecurity.

In our cybersecurity canon hall of fame, you will find reviews from some of the professionals currently enthralled in cybersecurity. These are individuals who understand the world of cybersecurity, who've spent years rolling up their sleeves and getting hands-on, and who also know what makes a good and interesting read about cybersecurity.

With that said, below are few reviews that were selected by our community.
