*Palo Alto Networks is excited to introduce the new Google Chrome Search Extension. This feature will help you find answers faster without disrupting your normal search results on Google. Find your answers on LIVEcommunity!*

## **Introducing The Google Chrome Extension for Palo Alto Networks**

In a world of knowledge and sifting through the pages of search results, we are always looking for easier ways to find answers to our questions. Of course, everyone may have a different question or they may ask the same questions differently. In either event, it's important to find the answers you need when you need them.

Allow me to introduce the new Palo Alto Networks Search Extension for your Google Chrome web browser. Now, you can find answers to your Palo Alto Networks questions faster than ever.

### **What is the Palo Alto Networks Google Chrome Extension?**

The Google Chrome Extension is a way for us to meet the people who are looking for information from Palo Alto Networks where they are—on the Google search results pages. We use Machine Learning to curate the knowledge that we have in order to help find the most focused, relevant information possible.

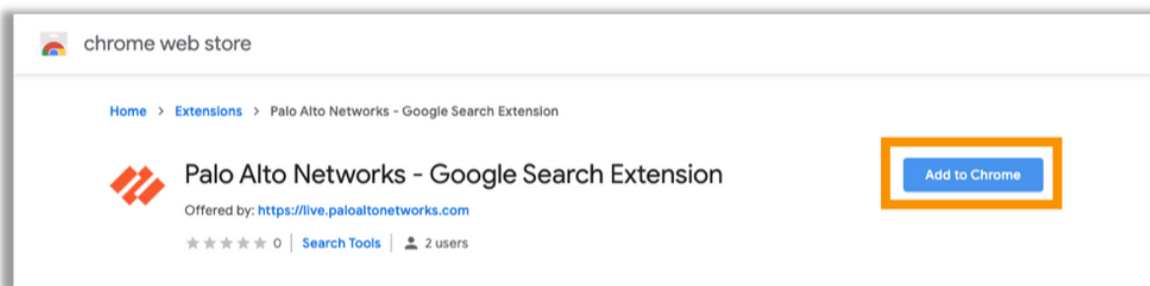

Knowledge is our commodity: knowledge in the form of solutions; timely knowledge about threats, breaches, and best practices; knowledge for growth and professional development. Our customers look online to find the knowledge they need, and the Palo Alto Networks Google Chrome Extension will help them find that knowledge faster.
